

Pride Soccer Club Feedback Form 2008-2009

The Pride Soccer Club has experienced tremendous growth since its beginning over four years ago. To ensure that we are meeting the expectations that were set forth at the beginning of the season, we are asking for everyone's participation in this survey. We are looking for the positive things in regards to the overall PSC experience and respective teams so that we know what we should continue to provide for our players and families. We are also looking for issues or concerns regarding the PSC and each respective team, and with those any suggestions or potential solutions will be appreciated and considered. We are very interested in constructive criticism so that we can make the PSC the best it can be. The information you provide will be compiled and shared with the PSC administration and coaches. Our goal is to provide a quality training environment so that players will improve their technical and tactical abilities and to foster an enjoyment and love for the game of soccer.

Parent's name (optional): _____

Team: _____

Years with PSC: (circle) 1 2 3 4 5

Where did you play before joining PSC: (circle)

Another Club CW Rec Another Rec League Did not play

Rate Your Overall Experience: (1 to 10 with 10 being highest) _____
